

2026 Backflow Testers

The following is a list of backflow testers who perform work in the City of Dixon and is intended as a resource for the convenience of the public. In order to be eligible for this list, a contractor must have an AWWA Backflow Prevention Assembly General Tester Certification, Backflow Test Kit Accuracy Certification, and a current Business license in the City of Dixon.

Note that by providing this list, the City of Dixon is not recommending or endorsing a particular contractor or warranting the reliability of any such contractor. If you are an eligible backflow tester and would like to be added to this list or have any questions, please contact Josh Hudson at

Jhudson@cityofdixon.us.
